CERNER VALIDATES C-SERIES DESKTOP PRINTERS

CognitiveTPG's C-Series desktop printers have recently gone through the validation process by the number one Healthcare software provider, Cerner Corporation. These printers are now ready for use at Cerner's more than 27,000 worldwide facilities.

Amongst the printers receiving Cerner's validation is CTPG's newly branded DocuShield printer. The DocuShield solution eliminates the need for expensive, preprinted prescription paper and locked printer drawers, reduces risk, and improves workflow.

Cerner-Validated Printers

- CXD4-1300-SC (DocuShield-exclusive Prescription Printer, newly released)
- CXD2-1000
- CXD2-1300
- CXT2-1000
- CXT2-1300
- CXD4-1000
- CXD4-1300
- CXD4-1330
- CXD4-1330-RX
- CXT4-1000
- CXT4-1300
- CXT4-1330
- CXT4-1330-RX

(Note: all printers installed into Cerner environments require Ethernet capabilities)

Cerner VALIDATED

"Becoming Cerner Validated is a significant milestone achievement for the DocuShield solution. We can now bring the most efficient on-demand secure prescription solution to Cerner customers, bringing us closer to our goal of becoming the top on-demand provider of thermal secure printing technology."

Kyle Turner
CEO & President
of CognitiveTPG

Validation Process

The validation process was extensive to ensure compatibility with all of Cerner's systems and software. The printers were subject to a demanding testing cycle by Cerner's Technology Certification Lab, which certifies the use of these printers in any health care facility using Cerner systems or software.

About Cerner Corporation

Cerner is the leading U.S. supplier of health care information technology solutions that optimize clinical and financial outcomes. Around the world, health organizations ranging from single doctor practices to entire countries turn to Cerner for their powerful yet intuitive solutions.

Supporting Software

In addition, the following Cerner proprietary printing subsystems are supported by CognitiveTPG and run under the following operating systems:

Cerner Millennium applications version 2005.02.06 and above
- IBM AIX version 5.3 – ML 3 and above
- HP-UX Version 11.23, 11.31
- Red Hat 5.3 Enterprise or greater
- CUPS version 1.3.7 or greater
